

Call for Concept Papers for the Hackathon on AI/ML and Data Science

Are you a tech enthusiast? Do you have a knack for thinking out of the box? Do you wish to solve real world problems using modern technologies? If yes, this is your chance to do it.

Global IME Bank invites students, AI/ML professionals, Coders, Academic Professionals, and basically anyone with a passion for solving problems, to participate in this event. We present you an opportunity to work on any one of the below listed 4 real world challenges where you will have the opportunity to showcase your tech skills, and propose innovative solutions.

The Challenges

1. Suspicious Transaction Detection
2. Classifying Images/PDFs using Computer Vision Techniques
3. Personalized Financial Management & Retention Offers
4. Predictive Analysis for Branch Revenue

Please scan the QR Code for details of each challenge.

The Submission Details

- This is a free of cost event for the participants, and you can submit the paper as an individual or as a team of maximum 5 people.
- Registration of the team (or individual), and the submission, will all be done online through the Bank's website. For teams, just one registration per team needs to be done.
- Papers will be reviewed by the Bank's Technical Paper Reviewing Committee, and will be classified into three categories:
 - Extremely Useful
 - Intuitive
 - Not Useful Enough**("Extremely Useful" being the highest rank, and "Not Useful Enough" being the lowest.)**
- Only the participants whose result belongs to "Extremely Useful", and "Intuitive" category, will receive the **digital shareable certificates** via registered email (For teams, all the individual members will get the certificate), and the results will also be made public via the Bank's Website, and the Social Media Channels. Whereas, the results of "Not Useful Enough" category will be notified to the respective participant(s) through email, but will not be made public.
- The participants who secured "Extremely Useful", and "Intuitive" category will be auto-qualified for the on-site Hackathon event to be held on 1st May 2025.
- Location of the on-site Hackathon event will be communicated after the paper reviewing phase.
- There will be multiple winners under several categories on the Hackathon Event, which include **Monetary Prizes**, as well as chance for **Collaboration**, and **Public Recognition through media platforms**.
- The deadline to submit the paper is 5:00 P.M.- April 4th, 2025. (NST)
